## PROFESSIONAL SUMMARY

Senior Front-End Engineer with 7+ years of professional experience building enterprise, government and SaaS web platforms with Angular for clients across Saudi Arabia, the UAE and Egypt. Specialized in scalable front-end architecture with Nx monorepos, modern Angular (Signals, Standalone Components, Deferrable Views), RxJS and NgRx, and reusable component libraries. A background in UI design drives pixel-perfect, responsive and accessible interfaces, delivered in close collaboration with UI/UX and backend teams in Agile environments.

## EXPERIENCE

**Senior Front-End Developer (Angular)** Jul 2023 – Present

*Youxel Technology*

- Build scalable, high-performance Angular applications for government and enterprise clients and for Youxel's SaaS products (CERQEL, TREMVO).
- Architect reusable, maintainable UI components following Clean Architecture principles within an Nx Workspace.
- Adopt modern Angular features across the codebase: Signals, Standalone Components, Lazy Loading, Deferrable Views and the new Control Flow syntax.
- Integrate RESTful APIs and optimize application performance and loading speed.
- Implement responsive interfaces with Tailwind CSS, Bootstrap and Angular Material.
- Contribute to code reviews, debugging and quality improvements in an Agile team alongside UI/UX and backend engineers.

**Front-End Developer (Angular)** Jan 2022 – Sep 2026

*IFBS (part-time)*

- Developed ERP system modules covering finance, HR, supply chain and business management interfaces.
- Built reusable components and optimized front-end performance.
- Worked closely with backend developers on API integration and business logic; resolved UI/UX issues to keep the system stable.

**Front-End Developer (Angular)** Oct 2022 – Jul 2023

*Shura Solutions*

- Developed enterprise-level Angular applications for government and business sectors.
- Built dynamic dashboards, complex forms and data-driven user interfaces.
- Implemented authentication, routing and state management, and integrated backend APIs.
- Worked with Git, Azure DevOps and Agile methodologies.

**Front-End Developer (Angular)** Jul 2021 – Sep 2022

*BlackStone eIT*

- Developed responsive web applications with Angular, TypeScript and RxJS.
- Established clean, maintainable code structures and built interactive UI components.
- Improved application performance and user experience.

**Front-End Developer (Angular)** Mar 2020 – Jun 2021

*eG Innovations*

- Developed and maintained multiple Angular applications and landing pages.
- Converted UI/UX designs into responsive, pixel-perfect interfaces.
- Integrated APIs and improved application functionality and accessibility.

**Front-End UI Designer** Apr 2019 – Feb 2020

*Musaada*

- Designed and developed responsive website interfaces and landing pages with HTML, CSS, JavaScript and Bootstrap.

**Freelance Front-End / UI Designer** 2018 – 2019

*Self-employed*

- Designed and built responsive websites and web applications for multiple clients.

## SELECTED PROJECTS

- **Latest — Insurance Authority, Saudi Arabia:** official Insurance Authority portal and the Policyholders' Protection Fund platform.
- **Government & enterprise — Saudi Arabia:** King Abdullah Financial District (KAFD), Ministry of Communications and Information Technology (MCIT).
- **Government & enterprise — UAE & Egypt:** Dubai Chamber portal, Emirates Schools Establishment, ADQCC Exam Portal (Abu Dhabi Quality & Conformity Council), Ajman Citizens Portal, GS1 Egypt portal (barcode standards).
- **SaaS products:** CERQEL — AI-powered platform unifying employee services, customer services and operational workflows; TREMVO — peer-to-peer employee recognition and engagement platform.
- **Business systems & others:** IFBS ERP (finance, HR, supply chain, manufacturing/distribution), Tyibat e-commerce portal, Motanaw3 online-courses platform with admin dashboard, Digital Workspace internal social and task app.

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages** | TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS/Sass |
| **Angular** | Angular 8 → 22, Signals, Standalone Components, Control Flow syntax, Deferrable Views, Functional Guards & Resolvers, Lazy Loading, RxJS, NgRx |
| **Architecture** | Nx Workspace (monorepos), custom npm libraries, Clean Architecture, SOLID, design patterns, OOP, code splitting |
| **UI** | Tailwind CSS, Angular Material, PrimeNG, ng-bootstrap, Bootstrap 5, responsive design, i18n (ngx-translate) |
| **Other** | React (Hooks), Ionic, Vite, Firebase, unit testing |
| **Tools** | Git / GitHub, Azure DevOps, Agile/Scrum, AI-assisted development (Claude Code, ChatGPT), Adobe Photoshop |

## EDUCATION

- **Bachelor's Degree in Computer** — Mansoura University, 2020
- **Diploma, Electronic Devices Department** — Technology College, Mahalla, 2017 (grade: Excellent)

## AWARDS

- **1st Place, Website Design** — Scientific Research Competition, Mansoura University, 2019

## LANGUAGES

Arabic (native) • English (very good — professional working proficiency)

## SPORTS & ACTIVITIES

Running — member of MRT (Madinaty Running Team) • Strava profile
